Shout outs to the crew:

Tom Watson - not all MPs are rotten

UKUncut - great work despite the METs utterly
devious attempt to blacken your
name on March 26

New Statesmen - for running great politically
biting stuff like interviews
with the bass player in Blur.

Hugh Grant - if we have to be ruled by Tories
then we'd rather it be you than
the current lot.

Kate Bush - not sure remaking the your old
songs is the best use of your time.
Just sayin'

Little Nicky Clegg - go on, pull out, send them
crashing down.

Fred West as played by the bloke from The Wire
(looking forward to this - aren't you?)

istyosty - saving us from increasing the ad revenue of
the Daily Mail since 1873. Love to you.

Dappy of the So Solid Crew - big love to the man.
R3m3mb3r h8ers h8 & lov3rs lov3.
